

## **Rotterdam Boatshow 2024: A Grand Return!**

ROTTERDAM – From March 29 to April 1, 2024, Jachthaven De Rotterdamsche Admiraliteit will once again set the stage for an extraordinary event: the Rotterdam Boatshow. This year, the event is larger than ever! Not only will more shipyards, including international names, have the space to showcase their most beautiful yachts and tenders, but also a large part of the quay will be involved in the spectacle. Along the waterfront, suppliers of yachts and other luxury goods will exhibit their products, making the Rotterdam Boatshow not only a showcase of impressive vessels but also a gathering place for the crème de la crème from various luxury segments.

Since its establishment in 2014, harbor master André Eleveld has grown this location into a harbor with 100 permanent berths and 25 places for visitors. Located in the lively heart of Rotterdam, directly on the Maas River, this location is ideally suited for a luxury and exclusive event, focused on the higher segment of water sports.

This unique event comes to fruition thanks to the efforts of André Eleveld and Andre Wijbenga, who jointly take on the organization. The combination of experience and dedication promises an event that seamlessly fits Rotterdam and its impressive harbor.

"Rotterdam, as one of the largest port cities in the world, deserves an exclusive nautical event that reflects its maritime splendor," says André Wijbenga.
